SUMMARY

Recent Computer Science graduate with a strong analytical mindset and programming skills, seeking a challenging Data Analyst role. Pursuing a 6 -month internship, gaining experience in CMS tools like SDL Tridion and Builder.io, data cleaning, data analysis, SQL, Python and Power BI.

Education

Master of Computer Applications *July 2023 – May 2025*

Guru Gobind Singh Indraprastha University

- GPA: 8.8/10.0

Bachelor of Computer Applications *Sept 2020 – June 2023*

Guru Gobind Singh Indraprastha University

- GPA: 9.2/10.0

Experience

Web Content Editor (Intern) *Gurugram, IN*

Schneider Electric

Aug 2024 – Jan 2025

- Using HTML, SDL Tridion, and Builder.io, Designed and developed responsive web pages that enhance user experience.
- leveraged data visualization tools like Power BI to analyze data and present insights that inform content strategy.
- Role involved content review to maintain accuracy and consistency while collaborating with design, development, and marketing teams to deliver cohesive digital experiences.

Backend Management (Intern) *New Delhi, IN*

Hero Fincorp

Aug 2022 – Oct 2022

- Using SQL, Manipulated and handled all the data and Details of Customers
- Leveraged and conducted Statistical analysis of user's information and identified the customer buying behaviors.

Projects

Sales Analysis

- Utilized Power BI to analyze Sales Data, revealing actionable insights on customer behavior from a dataset featuring 11 columns and over 185K rows.
- Discovered that December saw a huge increment in Sales by 150% valuing to 5M sales as compared to 2M in January.
- Total Sales for FY 2019-20 were 34M and Total Quantity Sold was 209K Units.
- Tools Used: Power BI , SQL

FMCG promotional Domain Analysis

- Dynamic Visualizations: Developed intuitive and interactive dashboards in Power BI, providing stakeholders with real-time access to key sales metrics and trends.
- Discovered Product with base price greater than 500 that are featured as “BOGOF” Buy One Get One Free.
- Discovered Total Revenue generated before and after promotion.
- Tools Used: Excel , SQL , Power BI

Technologies

Programming: SQL, Python (NumPy, Pandas, Scikit-Learn), C, DSA, OOPS

Data Visualization : Power BI, Matplotlib, Seaborn, Dashboards & Reports

IDE : Jupyter Notebook, Google Colab, My SQL Workbench

CMS : SDL Tridion, Builder.io, WordPress

Web Development: HTML , CSS , Javascript

Data Analysis Technique : Data Reporting, Data Management, Data Cleaning, Data Pre-Processing

Soft Skills : Strong Verbal & Written Communication Skills, Project Management

Additional : Statistical Analysis , Generative AI , Computer Networks
